

Business as usual [in December]

Because you are going to be busy entertaining holiday makers this festive season, Joe Soap will be staying open to ensure that you don't run out of essential items! Joe Soap will be operating throughout the December period, except for the following public holidays:

- 16 December
- 25 December
- 26 December
- 1 January

Product feature [Handy Fuel]

Keep your food warm with a renewable, safe, clean and non-toxic fuel...

In addition to our range of cleaning products and packaging, Joe Soap has added Chafer Heating Fuel. 'Handy Fuel' is derived from sugar cane and other renewable agricultural products. Conveniently packaged in a 5 litre 'papsak', it can be burned safely indoors and is environmentally friendly and efficient. The burn time, flame colour and gel consistency are specifically formulated for heating food.

Employee of the month [Sanele Zondi]

Sanele Zondi grew up in KwaZulu-Natal. Upon leaving school he began working as a construction worker in Durban. But jobs were scarce so in 2009 he came to Johannesburg in search of employment. It wasn't long before he found a job at Joe Soap.

His main responsibilities include decanting Joe's soaps from the mixing tanks into 5 litre containers. Sanele may work behind the scenes, but he is dedicated, hardworking and has set himself a goal:

"One day I would like to be a driver. I'm already learning to drive so I can get my license."

Each month, Sanele sends money home to his parents in KwaZulu-Natal.

"I'm so happy to have a good job. I even manage to save a little each month, through my saving's club."
