

Global Handwashing Day [downloadable A3 poster]

In recognition of Global Handwashing Day (15th October), Joe Soap has developed this handy poster to encourage your staff to wash properly!

Did you know...

Frequent handwashing has the potential to save more lives than any single vaccine or medical intervention? It is one of the most effective and inexpensive ways to prevent diarrheal diseases and pneumonia, which cause more than 3.5 million deaths worldwide in children under the age of 5 every year. Although people around the world clean their hands with water, very few use soap to wash their hands. In the food and hospitality industry it's all the more vital!

Product feature [Eezistrip]

Are you looking for an all purpose degreaser which is also safe to use in all food prep areas and all HACCP compliant kitchens?

Eezistrip:

- carries the SABS Food Grade (1828) approval
- is highly dilutable, (depending on the severity of dirt buildup)
- can be used on all surfaces, floors and equipment as well as the extraction canopy and filters.

Eezistrip can also be used on certain light duty grill line apparatus. The use of eezistrip eliminates the need for a non HACCP compliant chemical.

Employee of the month [Mapen Mnculwane]

Mapen hails from KwaZulu Natal and has now been a part of the Joe Soap team (as a packer and checker) for six years.

Asked about working at Joe Soap he says

"I enjoy working in this place very much! I've learnt a lot over the years, and I have a very good knowledge of the stock room - I have to check that the orders are packed correctly before they go out."

The smooth running of the delivery to clients depends on their orders being filled correctly and dispatched on time, and Mapen is well aware of the responsibility he carries, and how important his role is in the reputation of Joe Soap.
